UNCLE SAM TO RESCUE

Financial Stress to Be Relieved by the Government

AN ISSUE OF BONDS, ETC.

$50,000,000 of Canal Bonds and $100,000,000 of Treasury Notes To Be Issued—This money Will Be Great Relief in Moving Crops.

Washington, Nov. 19.—Secretary Cortelyou has made the important announcement that as a means of affording relief to the financial situation, the treasury would issue $50,000,000 of Panama bonds and $100,000,000 certificates of indebtedness, or so much thereof as may be necessary. The certificates will run for one year, and will bear 3 per cent interest.

The secretary's actions in coming to the relief of the financial situation meets with President Roosevelt's hearty approval, and the plan is the outcome of the several White House conferences which have been held in the past few days when the financial situation was under consideration.

Secretary Cortelyou says that the Panama bonds will afford most substantial relief, as the law provides that they may be used as a basis for additional national bank circulation. He also states that the proceeds from the sale of the certificates can be made immediately available at points where the need is most urgent, and especially for the movement of the crops, which he says, "If properly accelerated will give the greatest relief and result in the most immediate financial returns."

The secretary calls attention to the attractiveness of the bonds and certificates as absolutely safe investments.

Secretary Cortelyou adds that these relief measures will enable him to meet public expenditures without withdrawing for that purpose any appreciable amount of the public moneys now deposited in the national banks throughout the country. Two terasury circulars, one inviting proposals for the issue of bonds and the other asking for certificates, will be sent out under date of Nov. 18.

New York, Nov. 19.—Bankers, capitalists and financiers have generally approved the action of Secretary Cortelyou in issuing $50,000,000 of Panama bonds and $100,000,000 of certificates of indebtedness for the relief of the financial stringency. The issue, it was the general opinion, is found to have beneficial results.

The issue of temporary receipts, it is expected will immediately relieve the currency scarcity and banish the premium on cash. The putting out of this government security in small denominations is a good move, as it is believed it will attract from its hiding place much of the currency which has been taken out of circulation by third bank depositors.

One suggestion as to the effective use to which the new issue may be put was made by an international banker. He expressed the opinion that a large proportion of the new bonds would find their way to France and in exchage we would get some of the million of French gold which the bank of France has already expressed its willingness to let flow toward these shores, provided it had some sort of Government guarantee.

HAD IMMEDIATE EFECT.

London Market Heirs of United States Bnd Issue.

London, Nov. 1.—The official announcement from Washington that treasury certificates to the amount of $100,000,000 bearing interest at 2 per cent and that Panama bonds to the amount of $50,000,000 would be issued immediately in order to relieve the financial stringency in the United States had an instant effect on the market here. Prices promptly moved upward, the financiers and members of the stock exchage believing that Secretary of the Treasury Cortelyou's action was bound to in a great measure relieve the strain in the money market. It was thought probable that it would also see drain of gold from this market and obviate the necessity for another increase in the Bank of England's rate of discount.

Consols, which had been adversely affected by the outflow of gold, jumped up about ½ cent above Saturday's closing price at 32 1-8, and other British securities rose in sympathy.

Americans started 1 to 3 points above Saturday's closing prices and changed hands in the early morning at advanced prices. Some of the improvement subsequently disappeared, but at noon they still stood firm at 1 to 3 points above parity.

GEBBIAS FOUND GUILTY.

Verdict of Murder in First Degree in Lamana Case.

Hahnville, La., Nov. 19.—Leonardo Gebbia, and his sister, Nicofina, were Saturday declared guilty of murder in the first degree for the death of Walter Lamana, a New Orleans child, who was kidnaped and strangled early last summer.

The verdict creates a situation that is a travesty on justice, since it condemns to death two persons who were regarded as minor participants in the kidnaping, while four others whose more direct connection has been proven, have received only life sentences. Moreover, life sentences in Louisiana mean but 15 years' imprisonment, because at the end of 15 years good behavior causes the release of such prisoners.

The life sentence verdicts were passed by a jury last summer and caused such indignation that a large force of military was necessary to protect three of the prisoners from being summarily dealt with.

The fourth person convicted at the summer session was a woman. It was on account of the public excitement that the Gebbias' trial was postponed. Except for an appeal, the only hope for the Gebbias is in commutation of their sentences.

Saturday's convictions make a total of six life imprisonment and death sentences in this case for participation in the kidnaping.

Four Italians who are charged with the strangling have never been, as yet, caught.

NEGRO ROBBED WOMAN.

Highwayman Took Purse of $500, but Was Captured.

Birmingham, Ala., Nov. 19.—Mrs. W. Litterest was held up and robbed by Frank Howard, a negro, at Alley G and Twentieth street on Saturday night.

The negro struck the woman down, grabbed her purse, stamped upon her stomach and leaving her unconscious, fled down the alley. The purse contained $500 in cash.

Two negroes further down the alley seeing the fleeing man, ordered him to stop. Flourishing a knife, Howard brushed them aside, and continued his flight, but the two men took up the chase.

They pursued him for several blocks and were later joined by a third negro, who tackled Howard, and was cut. He knocked the highwayman down however, and the three men held Howard until police could be summoned.

The pocketbook with the money intact, was recovered.

Tragedy at Birmingham.

Birmingham, Ala., Nov. 19.—Maud Parsons, a woman about 23 years of age, was shot and killed Saturday night at the Victoria hotel on Twentieth street, and John Dagmer, a deputy sheriff, is held charged with the crime. There were no eyewitnesses to the tragedy, but Dagmer, it is said, was heard to say several times early in the evening that he was hunting the woman to shoot her. He claims she took his pistol from him and killed herself.

Cornerstone Was Laid.

Lavonia, Ga., Nov. 19.—The cornerstone of the new Methodist church was laid here Friday under the direction of the Masonic order. Several hundred visitors were on hand to witness the ocvasion. Grand Master Thomas H. Jeffries of Atlanta was here and delivered the address of the day. His address was one of the finest expositions of the history of Masonry ever heard here.

WHITE HAND SOCIETY

Formed In Chicago to Make War on Desperate Blackmailers.

SICILIAN SSTART A CRUSADE

It Is the Purpose of the Society to Fight Blackmailers in a Courageous and Systematic Manner—Funds for This Purpose.

Chicago, Nov. 19.—Aroused by increasing boldness on the part of desperate blackmailers masquerading under the name of the "Black Hand."

Professional and business men among the Italiens of Chicago Sunday organized the white hand society.

From now on the mano bianca—white hand—will wage a war of extermination against the mano mora—black hand—society.

The crusade has been started by the two leading Sicilian societies of Chicago. The Unione Siciliana, the strongest Sicilian society in the west, met Sunday for the purpose of organizing against the "Black Hand." Similar action was taken by the Societa Trinacria. The Italian chamber of commerce with its 250 members also is on record as approving the movement and will give its moral and financial support. The Italian consul, Chevalier Guido Sabetta, is one of the leaders.

It is the purpose of the white hand society to fight the blackmailers in a courageous and systematic manner. A fund of $10,000 will be raised for that purpose. Dr. C. Velini heads the subscription list with $250. He has received letters within the last week threatening the lives of his four children unless he submitted to an extortion of $8,000.

A committee of one hundred of the white hand society will call upon Mayor Busse and demand that the police supplant the efforts of the special staff of detectives that will be engaged by the Italians.

ONE DEAD AND ONE DYING.

Two Brothers Are Shot in Quarrel With Unknown Man.

York, Pa., Nov. 19.—C. L. Hoover, aged 15, died at his home here from a gunshot wound received in a fight on the country road near Pleasureville, and his brother, William E. Hoover, aged 17, is dying in the hospital from a bullet wound in the head received in the same affair.

So far as the authorotles have been able to ascertain, the Hoovers became involved in a quarrel with three men in a buggy. Rev. M. J. Heberty and his wife, who live nearby, heard an exchange of shots and the buggy was driven rapidly away.

Not until the finding of the boys lying unconscious in the road was it known that anyone had been hurt in the affair.

Lester Kauffman, Oscar Hoover and Henry Snyder were arrested by the police upon suspicion of knowing something of the shooting, and are being held pending an investigation.

TRIED TO KILL FAMILY.

College Professor Used Knife on His Daughter, Wife and Self.

Redding, Conn., Nov. 19.—Crazed temporarily as the result of financial losses during the last month or two Lucian F. Underwood, professor of botany at Columbia university, New York, Saturday afternoon attempted to kill his entire family and after cutting his wife's throat, ended his own life, cutting himself under the right ear.

Professor Underwood returned from New York on Thursday and complained of not feeling well and it is said acted strangely. In the afternoon, while his wife and daughter were in the dining room, he took a knife from the table and rushed at his wife. He raked the weapon across her throat and then ran over to where his daughter sat, nearly severing her head. Mrs. Underwood struck the knife from her husband's arm as he was about to stab his daughter.

Going to another room, the doctor cut his throat, and when physicians arrived at the house he was dead.

Mrs. Underwood and her daughter went to the home of Frank Ewing, where Mrs. Underwood's wounds were dressed. She will recover. The girl was not harmed.

Professor Underwood has made his home here for the past year, and had been connected with Columbia for eight years.

FAMOUS "FIGHTING FIRST."

Five Grizzled Veterans All that Remain of Mexican War.

New York, Nov. 18.—Five grizzled veterans, all that remains of the famous "Fighting First," of the Mexican war, relinquished their battle-torn flags Sunday on governor's island, in the presence of a distinguished assemblage.

The veterans were First Sergeant C. H. Farrell, Private John Dick, Sergeant Jacob R. Riley, Private James Butterfield and Musician John Peter Eckweller. Sergeant Riley carried the "Fighting First's" national colors, Dick, the battle flag and Butterfield and Eckweller the regimental guidons. Heretofore the colors have been in the keeping of the city of New York in the relic room at the city hall.

The flags were placed in sconces in the post chapel of St. Cornelius, the Centurion, and will hereafter be cared for by the United States government.

The flags were carried by the First regiment, New York volunteer infantry in the Mexican war, from the siege of Vera Cruz to the capture of the City of Mexico. When mustered in Dec 3, 1846, the regiment numbered 966 officers and men. Less than 300 returned from Mexico. But four regiments in General Scott's army equalled or slightly exceeded the loss of this gallant regiment in killed or wounded.

DIAMOND IMPORTATIONS.

Considerable Decrease In the Receipts of Precious Stones.

New York, Nov. 19.—The importation of diamonds and other precious stones for the first ten months of this year showed a decrease of more than $6,000,000 as compared with the corresponding period of last year.

Importers believe that for the entire year the decline will be about $10,000,000. They say that the decrease is chiefly in diamonds.

The falling off since the beginning of October has been especially marked. In that month the imports were worth only forty per cent of those of the corresponding month of last year. The total valuation of the imported stones this year up to the present month is $30,015,910. In the same period of 1906 the total was $36,791,717.

Danger of a Strike Ends.

Augusta, Ga., Nov. 19—After the voluntary reinstatement of Engineer Blasingame by General Manager T. K. Scott, of the eGorgia railroad, Asaassistant Chief Burgess has agreed to submit the entire remaining list of differences to the arbitration committee of the chamber of commerce upon the suggestion of that body, the railroad joining in the agreement and agreeing to abide by the findings of that body. This successful agreement precludes the possibility of the strike, which was to have been called at midnight Sunday night, and ends the probability of the Georgia railroad being tied up. The board of arbitration convened at 8:30 o'clock.

Novel Divorce Granted.

Laurence, Mass., Nov. 19.—Because his wife persisted against his continued remonstrances in going through his pockets at night, David Walker has been granted a divorce. Persistent and continued intrusion of his wife into the personal affairs, particularly the pockets of the plaintiff, sustain, in the opinion of the court, the charge of cruelty said Judge Sanborn in granting the decree.

Negro Kills His Rival.

Columbia, S. C., Nov. 19.—Henry Felder, a negro, was instantly killed by N. Davis, also a negro, Saturday afternoon on Main street by a stab just above the heart, which cut an artery. A quarrel over a woman was the cause. Davis surrendered and was lodged in jail.

MRS. BRADLE'S TRIAL.

Second Week of Celebrated Case Begins.

WITNSSES FOR THE DEFENSE

Great Many of Them Are From Mrs. Bradley's Former Home in Salt Lake City—Insanity Plea Main Hope of the Defense.

Washington, Nov. 19.—Mrs. Bradley found herself surrounded by friends when she went into court Monday to begin the second week of her trial on the charge of murder of former Senator Arthur Brown, of the state of Utah.

The court room was full of witnesses for the defense who had been told to be present in view of the probability of beginning the taking of testimony in her favor, and several of these had come all the way from her former home in Salt Lake City for that purpose. In this class were Attorney Mr. Eugene Whitney, who had been retained to support Attorney-General Bonaparte's statement that Mr. Brown had been responsible for criminal operations of the woman; Lyon Shrewsbury, the husband of an aunt of Mrs. Bradley who became insane; Mrs. Maddison, Mrs. Bradley's mother, and Messrs. N. H. Kaighn, Judge P. P. Henderson, Arthur Barnes and Colonel Samuel King, all of whom are attorneys of Salt Lake City, and are said to be familiar with different phases of the relationship between Brown and Mrs. Bradley.

It was stated before the trial began that the first witnesses introduced in Mrs. Bradley's defense would be some Washingtonians, mostly newspaper men and policemen who saw the woman soon after the tragedy, and will be questioned concerning her demeanor or an appearance at the time with the hope oc freating the impression that she was not responsible for her act.

TAFT AT VLADIVOSTOK.

Russian Cannon Boomed the Secretary a Welcome.

Vladivostok, Nov. 19.—Secretary of War Taft arrived here at noon Sunday on board the converted cruiser Rainbow.

The Rainbow was convoyed by the cruisers Chattanooga and Galveston. When the American vessels entered the Golden Horn they were met by the Russian gunboat detailed to escort them up the harbor. Salutes were echanged with the land batteries. As the Rainbow steamed in there could be seen the wreck of the Russian torpedo boat destroyer which was sunk during the recent naval maneuvers.

The Rainbow anchored off the city guarded by the Chattanooga and Galveston. The secretary and his party will remain on board the steamer until their departure from Vladivostok over the trans-Siberian railroad for St. Petersburg at 7 o'clock on the morning of Nov. 19. An imperial train has been placed at Mr. Taft's disposal for this journey, and the emperor of Russia has detailed military and naval aides to accompany him.

GAS STOVE EXPLODES.

Birmingham, Ala., Nov. 19—An explosion of a gas stove in the house No. 1 of the Tennessee Coal, Iron and Railway company's plant at Ensley early Monday morning killed two men were killed and a number seriously injured.

The victims were W. [illegible] formerly of Martinsburg, W. Va., and J. F. Simpson, whose home is in Loraine, Ohio, the man who was injured was a Bulgarian, name unknown.

All three of the men were burned.

New River Steamer for Mobile.

Mobile, Ala., Nov. 19—The freighter steamer John Quill, built at Somerville, Ind., arrived in this city afternoon after a trip through the Mississippi and the gulf intracoastal canal. The boat will run on the Tombigbee river trade, and cost $40,000.

ANNUAL SESSION OF THE WOMAN'S CLUBS

First Meeting Held at Elks' Home on Tuesday Evening.

MEETING LARGELY ATTENDED

The Audience Represented Representative People from Every Section of the State, and Many Prominent People of Gainesville Were There.

The thirteenth annual convention of the Florida Federation of Woman's Clubs opened in the assembly-room of the Elks' Club Tuesday night with a large attendance of delegates from every section of the State, and the State President, Mrs. Clara W. Raynor, presiding. The room was also well filled with many of the leading residents of the city, who had congregated to welcome the visitors, and to listen to the excellent program which had been prepared for the opening night.

The meeting was opened promptly at 8:30 by music, after which Mayor Thomas, in his usual happy strain, made an address of welcome in behalf of the city. Dr. W. F. Yocum, dean of the University of Florida, then made a few appropriate remarks, which was followed by an interesting address by Mrs. Raynor, the State president. The meeting closed with music, after which the delegates mingled with each other, enjoying a pleasant few moments together.

All day yesterday the ladies of the city were busy meeting trains and welcoming the various delegates, all of whom, however, did not arrive, but are expected today. There are quite a number here so far, but it is expected that the list will be considerably increased today.

At 9:30 o'clock this morning there will be a meeting of the board of directors and the credential committee, and the program for the day, which will begin at 10 o'clock, and to which the public is invited, will be as follows:

Wednesday, 10 A. M.

Music—Instrumental—Selected.

Welcome—Mrs. John W. Tench, president of the Twentieth Century Club.

Response—Mrs. T. M. Shackleford, first vice-president.

Invocation—Rev. T. P. Hay, Gainesville.

Wednesday, 4 P. M.

Reception tendered by Twentieth Century Club, Gainesville.

Wednesday, 8:30 P. M.

Musicale.

Address—Miss Louisa B. Poppenheimer, Charleston, S. C., subject: "Club Ideals and Ethics."

Musical and Dramatic Club.

We are glad to learn that Gainesville is at last to have a musical organization and that the initial meeting, held Monday evening, at the home of Mrs. B. P. Richards, promised results of which any community, double the size of our city, might be justifiably proud.

This organization, we hear, will present several works during the winter, among which Stainer's "Crucifixion," conducted by Rev. F. Stuart Hyatt, should prove of much interest, both to an audience appreciative of good music, and to the members of the chorus to whom an excellent score will be entrusted.

Instrumental excerpts from a new light opera were presented at Monday's meeting, and while promising big demands in principal parts, close and careful work on the part of a chorus and careful handling by the conductor, the members are confident that they are equal to the task and that the work, when properly presented, as it will be, will vie, in tunefulness and general musical worth, anything Gainesville has seen.

We wish the organization every success, and believe it will supply a long felt want in our city.

Is Making Repairs.

Work has begun on the residence of Col. A. P. Morrow, East Church street, which will receive extensive improvements and alterations. A good force is engaged, and the changes will be pushed as rapidly as possible consistent with good workmanship.

Col. and Mrs. Morrow are to be congratulated upon the contemplated changes, which will make, when completed, one of the most conveniently arranged and modern residences in that section of the city.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50-cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease. J. W. McCollum & Co.

AWFUL FATE OF YOUNG WHITE MAN

Stick of Wood Fell from Tender, Causing His Death Later.

COMPANION WALKED SIX MILES

And Asked for Assistance, But Was Refused—When He Returned His Companion Lived Only a Few Moments—Remains Taken to Bronson.

While walking from Cedar Key north on the railroad Monday night, two young white men, whose names could not be learned, stepped to the side of the track to permit the passing of the Jacksonville-Cedar Key train, south-bound, at a point about four miles south of Ellzey. They did not clear the track sufficiently, it seemed, and as the engine approached the men a stick of wood fell from the tender, striking one on the head, and causing a wound which four hours afterward resulted in his death.

It is stated that the companion, when he realized how badly his friend was hurt, walked to Otter Creek, a distance of six miles, and asked aid, explaining the condition of the companion he had left behind, but none was offered him, when he returned, to find his friend suffering greatly. In twenty minutes or a half-hour after returning, the young man died.

The remains were brought to Bronson on the early morning train Tuesday, where they were turned over to the authorities, and in the afternoon received a decent burial.

Effort was made over the telephone to secure some information Tuesday afternoon, but it was impossible to get into conversation with any subscriber, hence the names of the young men could not be learned. From what could be learned in an indirect manner, however, it is stated that the boys, who were from the North, had been to Cedar Key in search of work, and, failing to secure employment, were on their way back.

NEWS OF CITY AND COUNTY CONDENSED

Chief of Field E. D. Stanford and E. Paul Brown have returned from Bronson, where they have been on official business connected with the United States land office.

W. I. Polk of Morriston, Marshal R. L. Smith of Archer, and W. T. Jackson of Wauburg Lake, were in the city yesterday. Mr. Jackson states that he has just finished setting five acres of lettuce, which promises a fine stand. He expects to be shipping in large quantities in January.

Mrs. John W. Tench has returned from Norfolk, Va., where she went as a delegate to the National convention of the United Daughters of the Confederacy. Mrs. Tench reports a very interesting, enjoyable and beneficial meeting. At the election of officers among them was Mrs. R. C. Cooley of Jacksonville, who was chosen as corresponding secretary. The election of Mrs. Cooley, who is one of the most prominent Daughters of the State, was quite an honor to Florida, and she will receive the congratulations of her friends.

Fine English Setter.

Dr. J. H. Alderman, who is an enthusiastic sportsman and a great lover of the canine family, is proud over the possession of Lady Belle, a pedigreed English setter from the Mooney Kennels, North Carolina, which he has recently received.

Lady Belle is three years old, was purchased at a price, it is said, of $150. She is well trained, and the new owner declares she behaves the prettiest in the woods of any dog he has ever seen.

A SUNDAY TRAGEDY AT DOUBLE SINK

Joe McCow Shot and Killed Another Negro, After a Quarrel.

M'COW MADE GOOD HIS ESCAPE

No Particulars Further Than Fact of Tragedy Could be Secured, But Understood That Killing Was Result of Mere Trivial Matter.

Information has been received in Gainesville of another tragedy, which occurred Sunday at Double Sink, Levy county, in which Joe McCow, a negro employed in the turpentine camps, shot and killed a companion.

It would appear, from the reports from that direction, that everybody felt in the mood to fight on the last Lord's Day, as three tragedies are reported within a radius of forty miles, in each of which death resulted.

The particulars of this tragedy at Double Sink are meager, as only the information of the same could be received. It is known, however, that the two men, the name of the victim not being ascertained, became involved in a row, when McCow opened fire, killing his victim instantly.

After the shooting McCow made his escape, and at last accounts had not been captured.

THE CIRCUIT COURT.

The Time of Court Still Occupied by the Strobhar Case.

The time of the circuit court was Tuesday occupied by the case of the State vs. J. N. Strobhar, which was called and began on Monday.

At the convening of the court Tuesday morning the testimony of R. V Ott, an employe of the Dutton Phosphate Company, was concluded, and besides Mr. Ott, W. M. Dale of the Dutton Phosphate Company, E. D Turner, at the time of the alleged embezzlement assistant cashier of Dutton & Co.'s Bank, J. E. Fultz, cashier of the freight department of the Atlantic Coast Line, and W. M. Benedict, a former employe of Dutton's bank, were examined.

At the conclusion of the testimony of Mr. Benedict the court adjourned until 9 o'clock this morning.

Notwithstanding that the jurymen were confined all during the night their expressions were evident that they had rested well, and they were very bright and active at the opening of the court when they filed into the box, after a good breakfast, Tuesday morning.

KILLED WHILE ON A HUNT.

Boy Shot at a Covey of Birds and Killed Companion.

Columbia, S. C., Nov. 19—Walter Bethel, a 12-year-old boy, was shot and fatally injured by Carlis Krips, a youth about the same age, Saturday morning while out hunting.

The two, along with several others, were flushing a covey of birds on the farm by the state hospital for the insane, and when the game rose the party fired into the covey. A circle had been formed around the flock and Bethel was seen to fall. Investigation showed that a parlor rifle bullet had entered his head and he died on his way to the city, medical aid having been summoned.

Bethel was a son of a glass blower, and Krips is the son of J. A. Krips, a well known physician.

Man Is Blown to Atoms.

Zelenople, Pa., Nov. 18.—Harry Leise was blown to pieces and a property loss of $10,000 resulted Thursday night when two tons of powder in the grinding and storage room of the plant of the Pittsburg Fulminite company, 2 miles west of here, exploded. The force of the explosion shook buildings for miles around and caused a panic among residents of Harmony, Zelenople and adjacent villages.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. J. W. McCollum & Co.

Tom Loyless Made President.

Augusta, Ga., Nov. 18.—At the annual meeting of the chamber of commerce Friday night Thomas W. Loyless, editor of the Augusta Chronicle, was elected president; L. C. Hayne, first vice president; E. W. Hermann, second vice president.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded 50c.

LOUISVILLE CAR STRIKE.

Riotous Times Grow Out of Same. Strikers Rock Street Cars.

Louisville, Ky., Nov. 19—Two policemen were injured by bricks, five men were arrested, and a number of persons clubbed as the result of a riotous demonstration made by striking street car employees and their friends Sunday afternoon. That the affair did not result more seriously was due to the prompt arrival of police reserves, who broke up the crowd before it could be further inflamed.

A mass meeting of strike sympathizers was held at a hall in the central part of the city, at which heated speeches were made, but the crowd did not become fired until an address was delivered by the wife of a discharged conductor. Her remarks so worked on the feelings of the assemblage that when the meeting broke up an impromptu parade of over two thousand persons was formed and they marched about the business district. There was a large sprinkling of women in the crowd, and they incited the assemblage to stone street cars. Four cars were stoned, and although no one aboard was seriously hurt, several women passengers fainted from fright.

The procession finally halted at the corner of Fourth and Market streets, where more inflammatory speeches were made, and a collision with six policemen at the corner followed.

Sergeant Brockman and Policeman Dalton received painful wounds from flying bricks, but they and their four companions managed to arrest five of the leaders of the mob and get the reserves to the scene. Only a liberal display of pistols and free use of clubs by the reserves broke up the demonstration, which was fast becoming serious.

A police order was issued forbidding any more parades. This was the third day of the strike, and the company operated about one-fourth of the usual number of cars, which were moderately patronized. All service was suspended at nightfall.

PLAN TO FIGHT DISEASE.

Druggists Will Battle Stomach Trouble in Gainesville.

The increase of stomach troubles in Gainesville has led J. W. McCollum & Co to take effective measures to combat the disease.

They have the local agency for Mi-o-na stomach tablets, and in order to induce people suffering with weak stomach or indigestion to use the remedy, offer to supply it with the distinct understanding that money will be refunded in every case where it does not cure.

Mi-o-na is not a mere digestive, but an absolute strengthener and builder-up of the whole digestive tract. If you suffer with headaches, giddiness, palpitation, bad taste in the mouth, nervousness, coated tongue, distress after eating, use Mi-o-na and see how quickly these symptoms of a weak stomach will disappear.

The remedy strengthens the muscular walls of the stomach and increases the flow of gastric juices so that nourishment is extracted from the food and the refuse is expelled without the aid of purgative or laxative medicines.

Remember that J. W. McCollum & Co. give a guarantee to refund the money unless it cures. They take all the risk, and there is no danger of your losing anything except indigestion when you buy a 50-cent box of Mi-o-na.

Floods Moving Mountain.

Mont Iseo, France, Nov. 19.—A mountain [illegible] called Mont Bringuez, 1,200 feet high, is changing its position as a result of having been undermined by the recent floods. It already has moved a distance of 1,200 feet and is sweeping everything before it.

A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.—Rev. James A. Lewis, Pastor Milaca, Minn., M. E. Church. Chamberlain's Cough Remedy is sold by all druggists.

Tired Nervous Women Make Unhappy Homes

MRS. NELLIE MAKHAM

A nervous irritable woman, often on the verge of hysterics, is a source of misery to everyone who comes under her influence, and unhappy and miserable herself.

Such women not only drive husbands from home but are wholly unfit to govern children.

The ills of women act like a fire brand upon the nerves, consequently seven-tenths of the nervous prostration, nervous despondency, the "blues", sleeplessness, and nervous irritability of women arise from some organic derangement.

Do you experience fits of depression with restlessness alternating with extreme irritability? Do you suffer from pains in the abdominal region, backache, bearing-down pains, nervous dyspepsia, sleeplessness, and almost continually cross and snappy? If so, your nerves are in a shattered condition and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous troubles of women than Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Thousands and thousands of women can testify to this fact.

Mrs. Nellie Makham, of 151 Morgan St., Buffalo, N. Y., writes:—

Dear Mrs. Pinkham:—

"I was a wreck from nervous prostration.

MRS. GEO. A. JAMES

I suffered so I did not care what became of me, and my family despaired of my recovery. Physicians failed to help me. I was urged to try Lydia E. Pinkham's Vegetable Compound and I want to tell you that it has entirely cured me. I think it is the finest medicine on earth and I am recommending it to all my friends and acquaintances.

Mrs. Geo. A. James, a life long resident of Fredonia, N. Y., writes:

Dear Mrs. Pinkham:—

"I was in a terribly run down condition and had nervous prostration caused by female trouble, in fact I had not been well since my children were born. This condition worked on my nerves and I was irritable and miserable. I had tried many remedies without getting much help but Lydia E. Pinkham's Vegetable Compound brought me back to health and strength. It has also carried me safely through the Change of Life. I cannot too strongly recommend your medicine."

Mrs. Pinkham's Invitation to Women.

Women suffering from any form of female weakness are invited to communicate promptly with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

Affairs In Washington

Washington, D. C., Nov. 19.—The report comes to Washington from many sources that if Mr. Roosevelt is renominated the solitary hope of Democratic success lies in a new man, other than Bryan, and a new platform, while others are equally insistent that in the renomination of Mr. Roosevelt lies the salvation of the Democratic party, as it will surely place Mr. Bryan in the executive chair. Among the latter class of prognosticators in Washington, the recent utterance of Mr. Henry Watterson, the editor of a prominent Southern pournal, who declares that the very thought of a third term is treason, and that "if, though any machinations of political conditions, or any conspiracy of party machinery, it could present itself as an actuality, the people will rise en masse, especially in New England, and crush it as a giant might crush an eggshell," is being quoted as gospel truth.

Mr. Bryan's recent declaration in favor of immediate tariff revision is welcomed by Democrats in Washington who believe that it will serve to emphasize the utter incapacity of the Republican party to deal with the tariff monster, which it has itself created. Already there are indications of a lively row in Republican ranks. Representative Burton of Ohio, for instance, has announced his intention to resign the chairmanship of the committee on rivers and harbors. He contemplates this step because he believes that he is entitled to and hopes to force the Speaker to appoint him to the vacancy on the Ways and Means committee created by the defeat of Representative Grosvenor of Ohio. The Speaker, however, cares nothing for the fact that Mr. Burton is entitled to this recognition and is determined that he shall not have it because Mr. Burton has espoused the cause of the President and Secretary Taft, both of whom favor revision. Like all ardent protectionists, Mr. Cannon is first a "stand-patter" and with him justice has to take its chances after the protected industries have been duly provided for.

The State of Oklahoma which has just been admitted to the Union is the first Democratic State to come into the Union in sixty-two years, or since Texas was admitted. And it will have a greater voting strength in Congress and in Presidential elections because of the fact that it is the largest State in population ever admitted to the Union. It is a source of infinite satisfaction to Democratic politicians in Washington that it comes in just at a time when the party most needs it to save the Democracy in the United States Senate from the disgrace of falling below one-third of the membership of that body. With the two Democratic Senators from Oklahoma, the Democrats will again have one more vote than the one-third necessary, and if united, the party will have an unlimited veto power in the consideration of treaties. Although entitled by its population to seven members of the lower house, Oklahoma will have but five, and of those five members four are Democrats and one is a Republican.

A call for the Democratic caucus, which will assemble in the hall of the House on the evening of November 30th, at 8 o'clock, has been issued by the Chairman, Representative Henry of Texas. The expectation is that John Sharp Williams of Mississippi will again be chosen minority leader, and it is probable that few changes will be made in the party personnel of officers. Mr. Williams has made a decidedly capable leader of the minority and it is expected that with fifty more Democrats at his back in the forthcoming Congress, he will make an even better showing during the coming winter.

The financial situation is no longer the chief topic of conversation and discussion at the Cabinet meetings because of the steady and wholly satisfactory improvement in conditions throughout the country, and particularly in New York the outlook is greatly improved. According to the Secretary of the Treasury the fact that money is now being sent to the West freely through the usual channels, indicates, better than anything else, that the stringent conditions which have prevailed recently are easing up.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, farmer, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made of it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by W. M. Johnson.

Takes Temperance Platform.

Minneapolis, Minn., Nov. 19.—Frank E. Eddy, formerly senator from Minneapolis, made his first appearance as temperance lecturer Sunday when he addressed an attentive audience at the Metropolitan opera house in this city. He said that drink had prevented him from being governor of Minnesota. He closed by saying that he had taken the platform as a temperance lecturer because he realized it was because such men as himself set the example that young men take to drink.

There is No Reason

Why your baby should be thin, and fretful during the night. Worms are the cause of thin, sickly babies. It is natural that a healthy baby should be fat and sleep well. If your baby does not retain its food, don't experiment with colic cures and other medicine, but try a bottle of White's Cream Vermifuge, and you will soon see your baby have color and laugh as it should. Sold by W. M. Johnson.

Sailed Under False Colors.

Chicago, Nov. 19.—F. E. Wolffe, with offices at 155 Dearborn street, is under arrest here under charge of having obtained $25,000 worth of furs from eastern manufacturers under false pretenses. According to the police, Wolffe conducted a business known as "O. Ewald Anderson & Co." and represented himself to be an agent for a reputable fur house on Halstead street, which is well known in the east.

SEN. ALLEE FAVORS THIRD TERM

If He Is Elected Delegate to Convention, Will Vote for Roosevelt.

Dover, Del., Nov. 19.—Former U. S. Senator J Frank Allee, on his return to his home here from Washington, declared that he intended to be a candidate for delegate to the next republican convention, and if successful would vote for the nomination of President Roosevelt. He said:

"I am going before the republican party of my county and will seek the co-operation of the people for the following line of action;: That I and three others of their choice be elected as delegates to the republican convention to vote for and insist on the nomination of Theodore Roosevelt for the presidency of the United States and to insist on and vote for a prohibition plank in the platform of the republican national convention.

"I have informed Mr. Roosevelt that I propose to stand or fall for the election of myself and these associates who pledge these two things."

Mr. Allee declined to say what President Roosevelt said to him on this proposition.

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists.

A Queer Epitaph.

I may perhaps be allowed an inquiry with regard to a stone said to have been removed from Epworth churchyard within the memory of persons now living, but when or by whom nobody can say. It was to the memory of one Richard Towris, and it bore this inscription:

Who lies here? Who do you think?
Richard Towris, and he liked drink.
Drink? Drink, for why?
Because Richard Towris was always dry.

Watery.

"Looks like rain today," said the milkman as he poured the customary quart from his can to the pitcher.

"It always does," replied the housewife, compressing her lips with cold significance.

Stifling an oath, he took up his liquid burden and departed heavily.—New Orleans Times-Democrat.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Is this Republican panic caused by the tariff, and is the boasted prosperity built on the sands of protection, which will not stand the first gust of adverse wind?

When it comes to the tainted millions of Rockefeller, Harriman, Morgan et al being used to try and stem the panic, President Roosevelt was quite ardent in welcoming them.

Armour has tightened the beef combine rope around the people's neck a little more by adding the National Packing Company to his already controlling interest in the packers' trust.

The frenzied financiers of Wall Street have been feeding on inflation, and are now demanding of their Republican friends "asset currency," which would produce another era of mad speculation.

Boss Cox of Cincinnati, who declared for Roosevelt last summer, has come to political life again, and is telling what the boss-ridden Republican party will do and not do. He says: "As I understand the situation, Nick's father-in-law, before he goes out is to give him a foreign mission."

The National bank examiners are examining into the official records of several of the New York banks that failed lately. It is rather suggestive that the Comptroller of the Currency but seldom discovers anything wrong with the National banks in time to protect depositors.

Judge Grosscup is a pseudo philosopher. He denounces the States for their efforts to control railroad corporations and says that there cannot be too much Federal regulation, "if it be wise legislation." "If!" There's the rub. He admits that the character of such regulation heretofore has been bad. The whole thing must therefore be bad. "By their fruits ye shall know them." Do men gather grapes of thorns, or figs of thistles?

Mrs. Mary Morris died at Arthur, Breathitt county, Kentucky, a few days ago aged 84, says an exchange. She had lived on the same farm fifty-four years and had not been off the place for three times. She lived within a mile of the railroad and never saw a train. Her farm is half a mile from the river, yet she never saw a boat but once. She spun and wove her own clothes and raised a large family. Her lack of curiosity was according to her family, who came and went at their will.

A diary issued this year by Chas. A. Snow & Co., patent attorneys of Washington, D. C., is one of the most handy and complete books of the kind we have seen. It contains ample space for daily memoranda, cash account, information as to postage and other data of value to the farmer, the mechanic and the professional man. Nowhere that we have seen has such a complete memorandum been obtained for so little. The diary can be had by sending a two-cent stamp to Chas. A. Snow & Co., patent attorneys, Warden Bldg., Washington, D. C.

STEADY, MEN!

Steady, men! Be firm; be courageous; be determined, and victory will be yours!

These are the ringing suggestions, not in the form particularly of a command, but a warning of encouragement which is passed along the line of soldiers by a high authority as they are about to enter battle, and if these soldiers remember these cheering words, and live to the suggestions urged by those in authority, in the majority of battles victory falls to them—in fact, in all battles except those in which they lose courage and firmness, being opposed by forces acting under the same instruction, and which, by these elements of firmness, courage and determination, they emerge from the field masters of the situation.

Now, everyone—even the tiniest schoolboy who is able to read and conceive—have had the idea drilled in their heads through press reports sent out from Wall Street, the great financial center of the United States, where both bulls and bears feast upon the labors of the American people until they have become fattened upon their own corruption.

These financial gluttons have been successful for years in dictating the monied interests in America, and will continue to do so as long as our people will submit.

We who live in Florida have a great deal for which to be thankful, but which, we fear, falls short of gratitude—not because of non-appreciation, but because we have been for so long basking under a prosperous sun that its rays, though still as responsive as ever, have become so uniform in their degree of gracious warmth, that we really lose conscience of their effect.

Let the whole country suffer from the vicious, unmerciful claws of Wall Street, if they are willing to submit, but why has Florida to suffer? The people of this thriving State can live without Wall Street or its dictations, because of the fact that they have been blessed by the Supreme Ruler with diversified advantages which will never die, and unlimited resources in every way. In a State where riparian rights afford an abundance of the finest products of the sea, the river, the lake; where the thrifty farmer can have a crop of some kind growing every month in the year; where the horticulturist may ship to market the finest citrus and other fruits the world has ever produced; where rest vast beds of inexhaustible phosphate; and where hundreds of other minor resources are easily found?

What is the necessity of the so-called financial panic affecting the good people of Florida?

In conclusion, a word to all, and to the country's friend, the farmer, in particular:

Hold your cotton, regardless of what the Wall Street gluttons tell you through their scheming efforts. Do not permit that gang to dictate to you, and set a price upon that which you have produced by the sweat of your own brow. We should all thank God for the fact that we have plenty of sweet potatoes, pork and bread—and if it comes to a show-down we can subsist on that until Wall Street is forced to terms.

Steady, men! Be firm; be courageous; be determined, and victory will lay as a sparkling jewel in the palms of your hands.

Under the new two-cent passenger rate of Georgia, the Atlanta and West Point railroad has earned 17.9 per cent increase in passenger rates during the month of September. A pretty good argument that reduced rates will not bankrupt the railroads.

They are calling the due bills and certified checks the banks are issuing to tide over the panic. "Roosevelt Currency."

REPUBLICAN FACTIONS.

After Congress meets on December 2nd, many political things that are dark and dubious now will have the enlightning rays of partisanship thrown upon them. It will soon be apparent whether Speaker Cannon, Jim Sherman and the other Republican patriots, who dislike executive interference, and crave the contributions of the trusts and corporations to help their re-election, will stand up and fight for their share of the boodle, or lay down as they did at the last session of Congress. The Republican Congressional leaders talk very boldly in private of what they will do to those Congressmen who line-up at the White House and take orders from the "great I am." But a mess of Roosevelt patronage is a great temptation to some of the weak brethren. The united standpatters are determined to try and control the next Congress. They don't care so much what kind of a tariff plank goes into the Republican National platform, for they can ignore it and "still continue to stand pat, if they have a safe majority." The scared tariff must be preserved by these patriots at all hazard.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. WARSHIPS AT NIGHT.

From the First Call at Sundown to the Mournful Taps.

The routine of life on a battleship at night will interest boys who have a nautical bent.

The "first call" is sounded five minutes before sundown, when the ensign and the jack halyards are manned and a stay light made ready for hoisting to indicate the ship's whereabouts during the night. Then the color call follows at sundown as the flag is lowered and saluted by all as it reaches the deck. The assembly is then sounded for evening quarters and muster, but there is no drill.

As a rule, it is just after sunset when the bugle call is sounded to "Stand by hammocks." That brings all the crew on deck, and they stand in silence close out to the ship's side beside the hammock nettings, in two ranks facing the stern, until the boatswain's mate reports to the officer of the deck, "All up and aft." The latter then orders, "Uncover; pipe down!" and in obedience to this order and the boatswain's whistle the nettings are thrown open and the hammocks are served out and taken below to their proper places. Each hammock has printed on it a number, and that same number is on the hooks below decks where the hammock has to be swung, so that each man sleeps in the same place every night, and that place is called his "billet."

Unless a boat is called away there will be no more bugle calls until five minutes of 9 o'clock. The period is one of complete relaxation and is spent by the sailors in smoking, spinning yarns, singing, playing on musical instruments and dancing. At five minutes of 9 the first call is again sounded as a warning to the crew to prepare to turn into their hammocks and go to sleep. Then at 9 o'clock comes the call known as "Tattoo."

This tattoo is the survival of an old custom. In the "old navy" it used to last fifteen minutes and was performed with drum and fife, playing all manner of airs and quicksteps according to the fancy or ingenuity of the drummer and the fifer. It is even said to have been handed down from a period of superstition, when they used to make a hullabaloo after dark to drive the devils out of the ship. At the last note of tattoo the ship's bell is struck twice for 9 o'clock, and the boatswain's whistle sounds "Pipe down." Every man must then turn into his hammock, whether he is sleepy or not, for an inspection is made by the master at arms to see that all have done so. Then sounds that last long, mournful call, "Taps."—Chicago News.

JAPANESE STRATEGY.

Getting Rations Into Korea Before Invading That Country.

When the celebrated Japanese soldier Hideyoshi was making preparations for his invasion of Korea he was approached one day by the veteran Asana Nagamasa, who engaged him in the following colloquy. It is recorded in Walter Deming's "New Life of Toyotomi Hideyoshi:"

Nagamasa—What commissariat arrangements had better be made?

Hideyoshi—Well, you had better get ready 3,000,000 koku of rice.

N.—What is to be done with the rice after it is ready?

H.—Use every transport that is to be had and send it over to Fusan.

N.—After landing it, how are we to protect it?

H.—Don't protect it; let it fare as it will.

N.—If we do that the Koreans will capture it all.

H.—Well, isn't that what we want?

N.—But if we lose our provisions we shall be in trouble.

H.—It is a case of 3,000,000 koku. Such a quantity of rice is not to be carried off in a hurry, nor can it be consumed in a short time.

N.—But the Koreans will carry it inland.

H.—If they do that, nothing could suit us better. To get the enemy to do your transport service for you for the amount of rice that can be consumed on the road is good enough. By adopting this plan our troops will always find provisions waiting for them as they advance.

What Hideyoshi predicted actually did take place, and rice that had been carried off by the Koreans was repeatedly recaptured by the Japanese.

Various Kinds of Meteors.

"Meteors" and "meteorologists" have little in common although their origin is identical. "Meteor" meant a good many more things to Englishmen of a few generations ago than it does now in accordance with the meaning of the Greek adjective, which signified "up in the air," so that "ta meteora," the things up in the air meant the heavenly bodies. Winds and whirlwinds were aerial meteors formerly in English, clouds, snow and rain were aqueous meteors, and among luminous meteors were reckoned rainbows and twilight. Meteorology preserves the memory of all this, but the word "meteor" has gone over altogether to the astronomer's sphere.

LEGAL ADVERTISEMENTS.

NOTICE OF APPLICATION FOR LETTERS PATENT.

Notice is hereby given that on the 29th day of November, A. D. 1907, we, the undersigned, will apply to His Excellency, N. B. Broward, Governor of the State of Florida, or to his successor in office, for letters patent on the charter proposed below.

This 21st day of October, A. D. 1907.

J. W. BLANDING,
J. J. HAYMANS,
J. S. SHANDS.

Articles of Incorporation of the United Land-Development Company.

I—The name of the corporation shall be The United Land-Development Company, and its principal place of business shall be Gainesville, Alachua county, Florida.

II—The general nature of the business to be conducted by this corporation shall be to buy, sell, option, mortgage, lease, rent, cultivate, improve, plat, sub-divide, auction and deal in for itself and for others on commission all kinds of real or personal property; to borrow or lend money, its credit, or the credit of others, with or without security; to subscribe for, purchase, receive, own, hold, sell and dispose of stock, shares, bonds, securities or obligations of individuals or of other corporations wherever located; to buy, sell, lease and use machinery and appliances, supplies and personal property of whatsoever description; to collect, discount and assign securities or other obligations payable or transferred to it, either before or after maturity; to buy or own its own shares in any terms whatsoever, and to have power generally to do, perform, have, hold, acquire and enjoy all other property powers and things as shall be incident, necessary or expedient for the conducting of the necessary operations of the business, and generally to be vested with and to have all power granted or which may be hereafter granted to corporations for profit under the laws of the State of Florida.

III—The amount of the capital stock of this corporation shall be Ten Thousand Dollars ($10,000.00), to be divided into one hundred (100) shares of the par value of One Hundred Dollars ($100.00) per share. Said stock shall be paid in in cash or property at a valuation to be fixed by the directors of the company at the meeting called for such purpose, on the granting of this charter.

IV—The term for which this corporation shall exist shall be ninety-nine years from the date of letters patent bringing it into existence.

V—The business of this corporation shall be conducted by a President, Vice-President, Secretary and Treasurer, and a Board of Directors to consist of not less than three members, and such other officers as may be created and appointed by the Board of Directors of said corporation; provided, that the office of Treasurer may be vested in and the duties thereof exercised by the President or Vice-President or Secretary. The business of said corporation shall be conducted by Jno. W. Blanding, President and Treasurer; J. J. Haymans, Vice-President, and J. S. Shands, Secretary, until there shall have been an election of officers held by the stockholders of said corporation. The first annual meeting of the stockholders for the election of officers, adopting by-laws and transacting generally all business of the corporation, shall be held on the first Wednesday of December, A. D. 1907. There shall be an annual meeting of the stockholders on the first Wednesday of December of each and every year during the continuance of this charter.

VI—The highest amount of indebtedness or liability to which this corporation can, at any time, subject itself shall be Ten Thousand ($10,000) Dollars.

VII—The names and residences of the subscribers to this charter are Jno. W. Blanding, Gainesville, Fla., fifteen shares; J. J. Haymans, Gainesville, Fla., fifteen shares; J. S. Shands, Gainesville, Fla., fifteen shares.

GETS LARGE CONTRACT.

Americans to Erect $10,000,000 In British India.

New York, Nov. 19.—Americans have obtained the contract for the designing and engineering work for one of the largest iron and steel plants in the world outside of the United States. These plants, which will cost nearly $10,000,000, are to be located in British India, where it is estimated that the cost of production of various iron and steel products will be less than one-half that of th emost favored American steel making concerns This will eventually mean that besides making India independent of outside supplies of rails, etc., the projected works will prove most formidable competition with not only American but European and Japanese steel interests. The contract has been awarded to Julian Kennedy, Sahlin & Co., Ltd., of London, which was incorporated about three years ago.

The name of the new concern is the Tata Iron and Steel company. The plans embrace the erection of two blast furnaces with a minimum annual capacity of 120,000 tons.

ROOSEVELT INVITES GOVERNORS

Executives of All States and Territories Called to White House.

Washington, D. C., Nov. 19—President Roosevelt has invited the governors of the states and territories to meet him at the White House May 13, 14 and 15 next, to discuss the question of means to conserve the natural resources of the country

Invitations are to be extended to the members of both houses of congress and to the inland waterways commission.

The manner in which the subject is to be considered is indicated in the president's letter to the governors, which was made public at the White House Sunday.

Court of Bibb Have Busy Time.

Macon, Ga., Nov. 19.—This week is to be a busy one in the superior courts in Macon, and the grand jury itself will not find time hanging idly upon the hands of its members. Both bodies have enough work cut out for them in advance to hold their attention through Friday afternoon. The docket that has been made ready for the superior court gives at least half a dozen cases to each play and as many of the cases are in the nature of damage suits they may consume much time. The Macon Railway and Electric company is a party to about a third of the cases that are to come up. In each case the company is the defendant in a damage suit or complaint of some kind or another.

Washington, Nov. 18.—Secretary

Will Sail for Home Dec. 7.

Taft, who arrived at Vladivostok on Sunday, has cabled Major McIntyre, the aiding chief of the insular bureau, to engage accommodations for him and his party on the steamship President Grant, which leaves Hamburg, Germany, on Dec 7, for New York. The cablegram said nothing about his program for the stay in Asia or Europe. Mr. Taft telegraphed that all the party were well. It is understood here that Mrs. Taft will not come to the United States with the secretary but that she will remain in Europe for a short time.

STORM ON GULF COAST.

Heavy Rainfall in the Vicinity of Mobile Ala.

Mobile, Ala., Nov. 19.—A general storm was experienced along the gulf coast Sunday and Sunday night, the report at 10 o'clock being that the disturbance was principally confined in this territory to southern Mississippi from which point it turned east-northeast, being materially reduced in velocity and force.

The heaviest rainfall was confined to the immediate Mobile vicinity, where one-half inch fell in five minutes, the total for the day up to 9 o'clock Sunday night in this city being 1 1-4 inches. A heavy wind was experienced down the bay and in the southern section of the city, but no damage was done.

Be Charitable

To your horses as well as to yourself. You need not suffer from pains of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakersfield, Mo., writes: "I have used your liniment for ten years and find it to be the best I have ever used for man or beast." Sold by W. M. Johnson.

Prominent Atlantan Dies

Atlanta, Nov. 18.—Colonel Samuel Watkins Goode, for many years one of the most prominent real estate men in Atlanta, died Friday afternoon at 1 o'clock, after an illness extending over several years, and which finally resulted in a stroke of paralysis last Monday.

Dancing Proves Fatal.

Many men and women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. J. W. McCollum & Co.

Her Method.

Uncle Bob—Yes, my wife nibs believed in tyin' a string to her finger to remember things. Uncle Eb—She has one on her finger most of the time, I notice. Uncle Bob—Yes, 'cept'n when she has somethin' very partikler to remember; then she leaves off the string, an' when it ain't there she remembers why.

CASTORIA

The Kind You Have Always Bought

Infinitesimal Shears.

A clever workman in a cutlery factory in Sheffield, England, made a dozen pairs of shears, each so minute that they altogether weigh less than half a grain. That is about the weight of a postage stamp. Each pair is perfect and will cut if sufficiently delicate material could be found. Lying on a piece of white paper they seem no larger than flees.

National Gardens.

There are two gardens of England—namely, Kent and Worcestershire. That of Ireland is usually said to be Carlow, in Leinster. Italy and Belgium are both called the garden of Europe, while that of France is Amboise, in the department of Indre-et-Loire. The garden of Italy is Sicily and of Spain Andalusia. In the east Ceylon and Burma have both received the title, and the district of India so honored is Oude. Glamorganshire is often spoken of as the garden of south Wales. To the region west of our noble Mississippi the title "garden of the world" has been given.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no optiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

A Tiny Well Digger.

The mole is one of the thirstiest of animals. It never burrows at any great distance from water, and at times of drought when the supply of the needful element is diminished or cut off the "little gentleman in the velvet coat" counteracts the scarcity by digging wells until it comes to a depth at which water may be obtained.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea.

"Distinctive in Character"

Of all the imitations in the commercial world few are so quickly detected by expert and novice as imitation cut glass. We do not carry it. Every piece of cut glass that is in our store, and there a great many, appeals immediately to the sense of touch and sight. The quality is unmistakable, the weight, the deep cut, the exquisite tints and shades that are caught by the many facets, stamp it the best. Prices are most moderate. "Libby" is the brand.
